Purchase Agreement

If at any time you become unable to provide for your pup, or for any reason that you must get rid of your pup, **IT MUST** be returned to Buckeye Llewellins. The other option is that Buckeye Llewellins must approve the new home just as the original buyer had to do. A copy of all documents will be sent to Buckeye Llewellins attorney.

Breeding Rights

No breeding rights will be offered at the time of purchase. Rights may be given at a later time. In my opinion, there are too many people breeding for the wrong reasons. I'm just trying to do my part to preserve the breed.

Breeding rights may be given after the pup is fully DNA tested and certified as a healthy dog, and a fully finished Bird Dog Testing will be done at the buyer's expense. Once breeding rights have been approved, I will be willing to assist you in finding a suitable mate for your dog. It is with the utmost importance to start utilizing current, available testing. If we do not start utilizing testing, the breed that we love will meet its demise sooner rather than later.

Puppy Health Guarantee

Here at Buckeye Llewellins we offer a 5-year health guarantee, provided all the pups health requirements are met. We give all of our pups a 4-shot series which you will receive in your packet at the time of purchase. At the time of the last shot in the series one year later, and every year after that a [canine] distemper and parvo vaccination must be given. Rabies vaccinations must be given at one year of age and followed up every year, or every 3 years depending on the shot.

These vaccinations may **NOT** be purchased at big box stores, they must be bought from Revival Health or from your veterinarian. The heart worm treatment of your choice must be started no later than 12 weeks of age and must be given every month after. Please note that vigorous exercise at a young age in hard surfaces such as pavement, gravel roads may be detrimental to your pup's joints, ligaments, and bone growth. We recommend that all training and exercise be done in the yard, or in a field, not on hard surfaces.

If for some reason you need to collect on the guarantee, you must provide all records of all shots and medicine given to your pup up to the point of collecting. There are two ways to collect, you may choose a pup from an upcoming litter, or you may ask for your money back, at which point Buckeye Llewellins has one year after receiving all documents to refund your money.
